

ACENDA ARISE

Adolescent Recovery, Intervention & Substance Evaluation
AVAILABLE IN-PERSON & HYBRID

ACENDA ARISE offers one-on-one, personalized evaluations for teens, ensuring that each student receives the individualized care they deserve. With flexible appointment options, our evidence-based assessments are designed to support your teen's health and well-being. Our compassionate clinicians are dedicated to helping your child get back on track and back to the classroom quickly and confidently.

- One-on-one assessments for personalized treatment with clear recommendations for higher levels of continued care as needed.
- Appointments available within 48 hours—offered in-person or via telehealth.
- Referrals accepted from parents, schools, hospitals, and community organizations.
- A focus on enhancing your teen's decision-making skills and helping them navigate peer pressure, all while prioritizing their safety, health, and long-term well-being.
- Weekly communication with school personnel to support your teen's return.
- Separate meetings with parents to encourage collaboration and ensure your ongoing involvement in your teen's care planning.
- Most insurances accepted and payment plans available.

Navigating adolescence can be challenging for both teens and parents. We're here to support your family every step of the way with compassion, understanding, and expert guidance.
